Boston University

In Print

A supplement to News & Notes, the monthly newsletter of Boston University School of Medicine

November 1982

A WORD ABOUT 'IN PRINT'

In Print, a listing of Boston University School of Medicine faculty publications, will appear periodically in News & Notes. To keep the list up-to-date, faculty members are asked to send complete information on any scientific articles that recently have been published, or have been accepted for publication, to the Office of Informational Services, which publishes News & Notes. The submitted information should include all of the following:

--Full names (not just first initials) and faculty titles of all authors and co-authors, including those from other institutions;

--The complete title of the article, name of the journal and publication date;

--A phone number where more information can be obtained, should it be needed. If possible, a copy of the article should also be included.

Send the information to News & Notes editor Paul Vaskas at the Office of Informational Services, DOB-600 (720 Harrison Ave., Suite 600, Boston, MA 02118). Forms for listing information are in the September 1982 issue of News & Notes and are also available by calling x5606 (247-5606).

Michael S. Egan, M.D., a clinical and research fellow in arthritis; Don L. Goldenberg, M.D., an associate professor of medicine; Alan S. Cohen, M.D., the Conrad Wesselhoeft professor of medicine and director of the Arthritis Center; and David Segal, M.D., an associate professor of orthopedic and fracture surgery, "The Association of Amyloid Deposits and Osteoarthritis," Arthritis and Rheumatism, February 1982.

John E. Madias, M.D., an associate professor of medicine, "Spontaneous Angina in the Coronary Care Unit. 1. Frequent Association with Development of Acute Myocardial Infarction," Chest, July 1982.

John E. Madias, "Spontaneous Angina: Electrocardiographic Profile," Primary Cardiology, July 1982.

John E. Madias, "Spontaneous Angina in the Coronary Care Unit. 2. Electrocardiographic Changes During and After Chest Pain," Chest, September 1982.

Barry J. Make, M.D., an assistant professor of medicine; Albert Miller, M.D., of Mt. Sinai Hospital, New York; Gary Epler, M.D., an assistant professor of medicine; and J. Bernard L. Gee, F.C.C.P., of Yale University; "Single Breath Diffusing Capacity in the Industrial Setting," Chest, September 1982.

Robert F. Meenan, M.D., M.P.H., an associate professor of medicine; Paul M. Gertman, M.D., an associate professor of medicine; John H. Mason, M.A., a research associate; and Richard Dunaif, a research associate, "The Arthritis Impact Measurement Scales: Further Investigations of a Health Status Measure," Arthritis and Rheumatism, September 1982.

-over-

Robert F. Meenan; Don L. Goldenberg; Marita K. Murrman, R.N., M.S., an assistant clinical professor of nursing, Boston University School of Nursing; and Alan S. Cohen, "An Evaluation Strategy for Rheumatology Education," Arthritis and Rheumatism, January 1982.

Cecil Mushatt, M.D., an associate professor of psychiatry, "Anorexia Nervosa: a Psychoanalytic Commentary," International Journal of Psychoanalytic Psychotherapy, October 1982.

Robert Y. Pick, M.D., an instructor in orthopedic surgery, (editorial) "Today's Automobile Driver--Can His Successor be Educated to be Safer?," Journal of Trauma, December 1981.

C Andrew Rigg, M.D., an associate professor of pediatrics, "Homosexuality in Adolescence," Pediatric Annals, October 1982.

Sisir K. Sengupta, Ph.D., an associate research professor of biochemistry; Jerome E. Anderson, a research assistant; and Christine Kelley, a research technician, "Carbon 7 Substituted Actinomycin D Analogues as Improved Antitumor Agents," Journal of Medicinal Chemistry, October 1982.

Sisir K. Sengupta and Thomas F. Breanan, Ph.D., an assistant research professor of biochemistry, "DNA Binding of 7-Bulky Substituted Actinomycin Analogues," Journal of Medicinal Chemistry, in press.

Tsuranobu Shirahama, M.D., an associate research professor of medicine; Martha Skinner, M.D., an associate professor of medicine; Per Westermark, M.D., of Sweden; Alan Rubinow, M.D., an assistant professor of medicine; Alan S. Cohen, M.D.; Arne Brun, M.D., of Sweden; and Thomas L. Kemper, M.D., a professor of neurology (neuropathology) and anatomy, "Senile Cerebral Amyloid: Prealbumin as a Common Constituent in the Neuritic Plaque, in the Neurofibrillary Tangle, and in the Microangiopathic Lesion," American Journal of Pathology, April 1982.

Stuart L. Silverman, M.D., former research fellow at the Arthritis Center; Edgar S. Cathcart, M.D., D.Sc., a professor of medicine; Martha Skinner, M.D.; and Alan S. Cohen, M.D., "The Degradation of Serum Amyloid A Protein by Activated Polymorphonuclear Leucocytes: Participation of Granulocytic Elastase," Immunology, 1982.

Jean D. Sipe, Ph.D., an associate research professor of medicine and biochemistry; Stephanie N. Vogel, of the Uniformed Armed Services Research Center, Bethesda, Md.; Marcelo B. Sztein, National Institutes of Health, Washington, D.C.; Martha Skinner, M.D.; and Alan S. Cohen, M.D., "The Role of Interleukin 1 in Acute Phase Serum Amyloid A (SAA) and Serum Amyloid P (SAP) Biosynthesis," Annals of the New York Academy of Sciences, 1982.

John C. Snow, M.D., a professor of anesthesiology, "Anesthesia in Otolaryngology and Ophthalmology" (second edition), Appleton-Century-Crofts, New York, Summer 1982.

Per Westermark, M.D.; Tsuranobu Shirahama; Martha Skinner; Arne Brun; Robert Cameron, M.D., of Sweden; and Alan S. Cohen, "Immunohistochemical Evidence for the Lack of Amyloid P Component in Some Intracerebral Amyloids," Laboratory Investigation, May 1982.
